ATHENS | IOANNINA

www.g2lab.gr

G2lab is a design practice rooted in Architecture. In the 10 years of our inception, we've designed award-winning projects not only in Greece but more widely in Europe, encompassing a broad range of scales and typologies, such as hotels, public building and spaces, residences, bar and restaurants. Based in Ioannina and Athens, we aim to produce high quality architecture through unique design approaches that include hollistic application.
